

MESSAGE FOR THE NEW SESSION 2020-2021

11-03-2020

Dear Saint Arnold's Principal, Vice Principal, Students, Staff and Parents,

On behalf of the entire team at Saint Arnold's School, I welcome you all to the Arnold's family. It is extremely exciting to begin the academic year 2020-21. At Saint Arnold's, the goal of education is to provide an environment to the students which incorporates authentic learning and personal development with our vision "Academic Excellence & Integrity" to immerse in the ever changing and ever evolving world.

In the 2020-2021 school year, we are excited about building upon our successes academically, athletically and continuing our positive influence in the community. During this school year, we will be focusing on the use of technology which is shaping the future of education. We are selected for ATL, i. e Atal tinkering laboratories. This will give students to be innovative, creative and problem solvers with the use of DIY kit. I wish to set up high performance standards for teachers and students and each one will be rewarded as per their performance. All of us must try to close the gap between—high-performing and low-performing students by understanding each student's abilities, talents, skills, aptitudes, interests, cultural background and a variety of social and economic factors. No child will be left behind or suffer from low self-esteem, there is a story to listen to that will change our perception of a particular student. This has been my experience listening to parents and children, their stories of life.

In order to have better evaluation system, we will introduce periodical, half yearly and final exam, besides this there will be points for projects, creativity etc. **Our success is when a student graduates from Saint Arnold's School as a fully educated person.**

The new playground, Nehru maidan is ready for use. This year during Dasserah vacation school will have study tour to Bangalore and Mysore for students of Class VII to IXth. School has organized Summer Camp from May 4th to June 6th with variety of activities of fun and learning from children age 2 ½ years to different age groups of adults, especially for mothers. Kindly register your name at the earliest.

Parents play a vital role in the overall development of the child. The foundation of a successful school is the cooperation between the students, staff and parents. I am very much pleased and satisfied with the cooperation we receive from the parents. But my humble request you is let your child enjoy the childhood and not just make them study and attend tuition classes all the time. They are clever, smart, and encourage them for self-learning. Our staff will help and guide them when necessary.

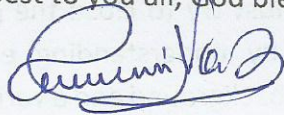

Dear parents, the entire school system is digitized and therefore you need to get yourself acquainted with it. We have introduced ERP, an advanced user friendly school management system, Biometrics for students and staff, RFID etc. We assure you best

communication system and a safe and a secure place for your child. School buses are installed with the CCTV Cameras. My staff will assist you to make online, offline payment and also to use the POS machine to make the payment. Kindly avoid making cash payments for tuition and school fees. Kindly respect the policies of the school, especially by reading the school diary. Thank you for your support and cooperation.

We believe in quality education and therefore well performing teachers continue to serve the school. I am proud to present to you the new staff members who are selected after a thorough recruitment process. They are efficient, well qualified and equipped with multi talents and skills who will raise the quality of the school. I now request our senior staff Member Rajyashree mam to introduce the new staff members.

I am looking forward to another amazing school year in service to our students, parents, and community.

Best to you all, God bless you and God bless Saint Arnold's School

Fr. Richard Vaz
Manager
